

Collaging The Landscape – Live Online Classes

Thursdays, May 26 – June 23, 2022

10am - 1pm EDT

Instructor: Kal Honey

Student Materials List

CORE Materials

Basic Tools

- Pencils and erasers
- Ruler
- colour wheel
- Masking Tape (Painter's preferable — good for temporary holds)
- a sketchbook with 20+ blank pages

- Basic acrylic paints:

I suggest at minimum the primaries plus black and white, and a good minimalist option might be a warm and a cool version of each primary, ie:

- Cadmium Yellow Medium and Lemon Yellow or Hansa or Cad. Yellow Light
- Cad. Red Medium and Alizarin Crimson or Quinacridone Magenta
- Phthalo Blue Green Shade and Ultramarine Blue
- Black
- White

- a wide(ish) brush: 1-2"

Cutting Tools

- Scissors
- Your choice of knives and cutting mat

Glues

- Most work can be done using simply a gluestick. I recommend UHU!
(ideally, you'll have a backup one, too)

Additionally, liquid acrylic medium also works very well as a glue -- it comes as gloss and mat -- the gloss dries completely clear, whereas the mat dulls colours down, especially in layers, so I suggest using gloss for all your layering, and then a final layer of a mix of gloss and mat as a final coat to get the amount of shine desired on finished pieces. Some people really like Mod Podge -- works similarly, but thicker and stickier.

Substrates

You'll need some decently-heavy paper to use as bases for exercises.

My go-to is an inexpensive block of watercolour or mixed-media paper (140 lb) 9x12" -- 12x18". Canson XL and Strathmore Vision are both great options.

But if you're strapped, you can use any light cardstock, heavier drawing paper, mat

board, bristol board, mayfair cover stock, illustration or mat board, etc.

If you want to use canvases and/or wood panels for your weekly projects, by all means go for it.

Collage Materials

Can include: images, patterns, colours, textures, magazines, newspapers, books, packaging, painted papers, gift wrap, specialty papers, tissue papers, coloured papers (from cheap construction paper for quick, fun stuff to fancier Japanese papers, etc), fabric scraps, old paintings, etc.

Don't forget your own personal photos — either ones you have on your computer or ones you go out and take!

OPTIONAL Materials

Ink-jet printer. While this is *definitely* optional, they are so inexpensive these days, and there is SO MUCH visual material available on the internet just a quick search away. Add to that the fact that you can print it at whatever size you might need, as many times as you need, on different kinds of paper...

Tweezers – if you like working with small pieces

I like to buy scrapbooking paper pads at Wal-mart or Michaels — you can find some great solid colours, textures, patterns, etc. and they're often acid-free

Thrift stores can be great places to find old books and magazines

Drawing materials: like conte, charcoal, nib pens and ink, pigment liners, paint markers, coloured pencils, pastels, etc.

Online Image Sources:

Two of my go-to resources for copyright-free images (either as reference or to print and use as collage materials) are:

Flickr Commons

Copyright-free images from dozens of Archives, Libraries, museums, and other organizations around the world.

Pixabay

1.6 million high-quality copyright-free images.
